## Metal Marking Product Matrix

The Product Matrix allows you to view the basic attributes of each product for a side-by-side comparison.

Our products are broken down into three categories: [Marking Devices](#), [Power Presses & Platforms](#), and [Accessories](#). A Marking Device is the unit that actually performs the impression. A Power Press or Platform holds the marking device. All Marking Devices equipped with a dovetail or press shank require some kind of marking device holder (e.g., power press, platform, etc.) for operation.

### Marking Devices

	Description	Ideal when data changes:	Requires Hammer Blow*	Compatible with: **	Hot Stamping Capabilities**
<b>HAND STAMPS</b>					
<a href="#">Standard</a>	Ideal for occasional stamping, using individual letter/number stamps.	Randomly	✓		
<a href="#">Custom</a>	Customized press dies, trademarks, symbols, and logos.	Never	✓	Platforms & Presses	
<a href="#">Rotary</a>	Ideal for occasional stamping. The single wheel letter/number stamp eliminates searching for individual letters/numbers.	Randomly	✓	Platforms & Presses	
<b>NUMBERING &amp; LETTERING PRESSES</b>					
<a href="#">Model 40B</a>	Uses 42 Character Dial and Automatic Spacing. Marks data, motor and social security plates, keys, pet tags, and flat metal parts. Can hold nests and strip holders.	Randomly			
<a href="#">Model 94</a>	Similar to 40B, but allows for larger characters.	Randomly			
<b>TYPE HOLDERS</b>					
<a href="#">Model 22</a>	Marks aluminum, plastic, and mild steel parts. Light-Duty.	Infrequently (e.g., every day or more)	✓		
<a href="#">Model 23 or 23P</a>	Stamps part descriptions (e.g., 100 Watts) or repetitive sequences quickly.	Infrequently (e.g., every day or more)	✓	Bench Top Presses	✓
<a href="#">Model 24</a>	Marks flat plates with multiple lines.	Frequently		Bench Top Presses	
<b>NUMBERING HEADS</b>					
<b>Automatic Heads</b>					
<a href="#">Model 50P</a>	Automatically serializes parts.	Consecutively (e.g., with each new part)		Bench Top Presses	✓
<b>Non-Automatic Heads</b>					
<a href="#">Model 60</a>	Marks nameplates, keys, and mild steel parts.	Somewhat frequently (e.g., every hour or more).	✓		
<a href="#">Model 70H or 70P</a>	Marks product and date codes, part numbers, food packages, and machinery parts.	Somewhat frequently (e.g., every hour or more).	✓	Bench Top Presses & Platforms	✓
<a href="#">Model 73H H.D. or 73P H.D.</a>	Similar to Model 70, but better for severe marking situations. Heavy-Duty, Large Characters.	Somewhat frequently (e.g., every hour or more).	✓	Bench Top Presses & Platforms	✓
<a href="#">Model 80H or 80P</a>	Similar to Model 70, but has Quick-Change of last wheel with knob.	Frequently (every few minutes/seconds).	✓	Bench Top Presses & Platforms	✓
<a href="#">Model 83H or 83P</a>	Similar to Model 70, but has Quick-Change of all wheels with knob(s).	Frequently (every few minutes/seconds).	✓	Bench Top Presses & Platforms	✓
<a href="#">Model 85H or 85P</a>	Similar to Model 70, but has Quick-Change of last two wheels with knob.	Frequently (every few minutes/seconds).	✓	Bench Top Presses & Platforms	✓

\* Applies to hand shank version only.

\*\* Applies to press or dovetail shank version only.

**Power Presses & Platforms**

	Description	Ideal when data changes:	Requires Hammer Blow	Compatible with:**	Hot Stamping Capabilities
<b>PRESSES</b>					
<b>Bench Presses</b>					
<a href="#">Model 131 Hand-Operated</a>	A large, powerful, and easy to operate Bench Press. Capable of stamping larger parts.	N/A		Model 23P, Numbering Heads, & Press Dies	
<a href="#">Model 131A</a>	Same as 131 but Air-Operated.	N/A		Model 23P, Numbering Heads, & Press Dies	
<a href="#">Model 133 Motorized</a>	Same as 131, but faster with less operator fatigue.	N/A		Model 23P, Numbering Heads, & Press Dies	
<a href="#">Model 136 Hand-Operated</a>	Similar to 131, but smaller, lighter, and more compact. Designed for marking name plates and other flat objects.	N/A		Model 23P, Numbering Heads, & Press Dies	
<a href="#">Model 136A</a>	Same as 136, but Air-Operated.	N/A		Model 23P, Numbering Heads, & Press Dies	
<a href="#">Model 137 Motorized</a>	Same as 136, but faster with less operator fatigue.	N/A		Model 23P, Numbering Heads, & Press Dies	
<b>Roll Marking Presses</b>					
<a href="#">Model 301 Hand-Operated</a>	A Roll-Marking Press that marks round parts with uniform depth of impression.	N/A		Model 23P, 70P, 50P, & Custom Dies	
<a href="#">Model 301A</a>	Same as 301, but Air-Operated.	N/A		Model 23P, 70P, 50P, & Custom Dies	
<b>PLATFORMS</b>					
<a href="#">Model 47</a>	Ideal for light or center punching. Can mark round parts using a "V" block.	N/A	✓	Model 23P, Non-Automatic Numbering Heads, Character Dials, Press Dies & Rotary Stamps	
<a href="#">Model 49</a>	Holds a stamp in vertical position for quickly stamping with a uniform depth of impression.	N/A	✓	Model 23P & 70P	
<a href="#">Model 98</a>	Aligns parts properly and marks with uniform depth in small, flat parts.	N/A	✓	Model 23P, Non-Automatic Numbering Heads	

**\*\* Applies to press or dovetail shank version only.**

**Accessories**

	Description	Compatible with:	Hot Stamping Capabilities
<a href="#">Air-Tripping Attachment</a>	Allows for smooth control of actuating arms while rotating wheels to the next number.	Model 50P	✓
<a href="#">Tripping Attachment</a>	Actuates Model 50 through press motion. For Numberall Presses only.	Model 50P and Bench Presses	
<a href="#">Model 116 Dovetail Adapter</a>	A fixture that allows quick interchanging of numbering heads, type holders, etc., by using horizontal insertion.	Numbering Heads	
<a href="#">Model 110 Universal Nameplate Holder</a>	A fixture that provides easy, quick clamping of a nameplate.	Platforms (except Model 49)	
<a href="#">Model 113 Strip Holder</a>	A fixture to hold rectangular shaped tags.	All Presses (except Models 301, 301A) & Platforms (except Model 49)	
<a href="#">Custom Nests</a>	A fixture for irregular shaped tags (round, bone, etc.)	All Presses (except Models 301, 301A) & Platforms (except Model 49)	
<a href="#">Universal Key Nest</a>	A fixture for applications that require many different styles of key blanks.	All Presses (except Models 301, 301A) & Platforms (except Model 49)
